

Roongsuree

Thai-English Interpreter

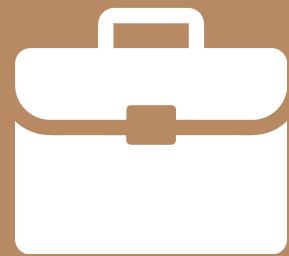

Education

M.Eng.Sc. in Structural Engineering The University of New South Wales, Sydney, Australia 1998

B.Eng. in Civil Engineering, Chiangmai University, Chiangmai, Thailand 1994

Experience

- **Medical Interpreter (Thai–English)** with extensive experience supporting doctors, medical staff, and patients in clinical consultations, diagnosis explanations, treatment plans, and follow-up care, particularly in international and cross-cultural settings
- **Simultaneous and Consecutive Interpreter** for medical seminars, training sessions, and professional meetings, ensuring accurate and confidential communication of complex medical terminology between Thai and international professionals
- **On-site Medical Interpretation** for foreign patients, providing real-time language support during hospital visits, medical procedures, and healthcare coordination, with strong emphasis on accuracy, ethics, and patient safety
- **High-profile Interpretation Assignments** involving international medical experts and healthcare organizations, demonstrating reliability, professionalism, and the ability to perform under pressure in sensitive medical environments
